

NHRI Health Notice: Novel Coronavirus (COVID-19)

1. Visitors

- (1) If you have returned from those countries that are listed **in Level 3 categories of Travel Notice for International Destinations** (Travel Notice Level : <https://www.cdc.gov.tw/En>) **within the last 14 days, you will not be granted entry.**
- (2) Fever screening at point of entry. Visitors with temperature $\geq 37.5^{\circ}\text{C}$ will not be allowed to enter.
- (3) Visitors have returned from those countries that are listed **in Level 1&2 categories of Travel Notice for International Destinations** (Travel Notice Level : <https://www.cdc.gov.tw/En>) **within the last 14 days are required to be screened for fever and put on surgical masks and sanitize hands with alcohol-based dry cleaners before entering NHRI and temperature taken before leaving the premises.**

2. NHRI staffs

- (1) According to CDC instructions, **a 14-day home quarantine (measure temperature twice per day) is required for travelers returning from or transiting through those countries that are listed in Level 3 categories of Travel Notice for International Destinations** (Travel Notice Level : <https://www.cdc.gov.tw/En>)
- (2) If you have entered from **those countries that are listed in Level 1&2 categories of Travel Notice for International Destinations** (Travel Notice Level : <https://www.cdc.gov.tw/En>) **in the past 14 days, but don't have any symptoms, please monitor own temperature twice daily, wear a surgical mask at work, and avoid going to enclosed crowded area.** If you have respiratory symptoms, wear a surgical mask and follow the medical instructions (as [attached](#)) as soon as possible and inform Health Center immediately.
- (3) If you have no China contact history but develop fever ($\geq 37.5^{\circ}\text{C}$), please stay home to rest. **DO NOT COME TO WORK.**

For more information on 2019-nCoV, please visit the Taiwan CDC website at <http://www.cdc.gov.tw>.
