

## **CECC confirms more COVID-19 indigenous case, staff who has related contacts is urged to notify Health Center and conduct self-health management**

In response to the recent spread of COVID-19 at some Airline, and indigenous cases gradually increase, **staff who has related contacts is urged to notify Health Center** (browse the following website or scan the QR code) and **conduct self-health management**.

**All people (Including our employees, students, and employees of contract manufacturers) must monitor own temperature once daily**, and avoid going to enclosed crowded area. If you have respiratory symptoms, wear a surgical mask and follow the medical instructions (as attached) as soon as possible. **If you have fever** ( $\geq 37.5^{\circ}\text{C}$ ), please stay home to rest.

### **DO NOT COME TO WORK.**

Also implement the following health reminders to lower the risk of infection.

1. The temperature measurements will be in place at the entrance. If your temperature is higher than 37.5 and also have some symptoms like coughs or chest infection, please wear mask and seeking hospital treatment as soon as possible. Please stay at home if you have a fever.
2. Hand hygiene is very important! Cover mouth when coughing or sneezing and bin the tissues straight away. Making sure wash hands before touching eyes, nose and mouth.
3. Avoiding chatting in the closed environment. (exp. in the lift, toilet, coffee room, copy room and on public transportations)
4. All visitors should follow the Epidemic prevention regulations.
5. Avoiding unnecessary trips abroad, if you must please inform your manager and filling up the application to HR before your departure.
6. If you are required by the authority to perform independent health management, home quarantine or home isolation, please report to the Nurses room (extension 39922) as soon as possible. If you have fever, cough and other symptoms, you should wear mask and seeking medical treatment as soon as possible.
7. Here are the time we strongly suggest to wear mask;
  - Visit the top 8 public locations such as;
    - (1) Hospital or health centre
    - (2) Public transportation
    - (3) Indoor or outdoor Market
    - (4) School

1100502 Updated
